

VISIONSCONNECTED

## MeetingSuite

Simplify your video conferencing meetings with one mouse click

Today's multi user video conferencing meetings, over a variety of systems and vendors are hard to setup and control.

We at VisionsConnected deliver you the right tool to manage the video conferencing meeting, so that you become the moderator of the video meeting.

MeetingSuite is a Web based application, easy to use and fully integrated into our Managed Video Service Platform.

Room:

**Vincent van Gogh Meeting Room** ☆

- ☆ Julian Roberts Mobile
- ☆ Linda Evans Office  
connecting...
- ☆ Henry Kessels Office
- ☆ Frank Verlinden External  
disconnected. ● remove ☆ reconnect
- ☆ Gino Balduci Mobile  
reconnecting.

reconnecting.

start meeting

The MeetingSuite application will give you the advanced functionality to steer the meeting the way you want it, just with the use of one mouse click!

- **User Accounts** – Pre appointed meeting rooms and phonebooks per user account.
- **Meetingroom status** – See at a glance the availability of your meetingroom with the status being *Free*, *In Use* or *Offline*.
- **Setup a meeting** – By dragging and dropping participants via the phonebook or manually by video address, upfront or “on the fly”.
- **Managing the participants** – Connect, disconnect and reconnect participants.
- **Managing the room** – Change the screen layout of the virtual meetingroom to fit your needs.
