## VC Dialer

Use your iPhone to control your videoconferencing endpoint

VisionsConnected brings you the VC Dialer, an application to dial video conferencing destinations on your iPhone in three easy steps:

- Connect your iPhone to the local Tandberg video conferencing endpoint of your choice
- Type the destination's address on your iPhone
- Press "call" and enjoy the meeting.

This dialer is designed to control your Tandberg EX, C, E or MXP series' endpoint over the WiFi network. Select the local video conferencing endpoint from your endpoint list. You can add multiple endpoints by entering the IP address and the username and password used to access its web interface (http).

- iOS – VC Dialer is supported for all products running iOS 3.1.3 or later, including iPhone (1<sup>st</sup> gen, 3G, 3Gs, 4), iPod Touch (1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> generation) and iPad
- **TANDBERG** – Tandberg MXP, E, EX, and C series endpoints. For more information about these endpoints, please go to [www.tandberg.com](http://www.tandberg.com)
- Connects over WiFi to the **TANDBERG** video conferencing endpoint
- Add multiple video conferencing endpoints to the list
- **Recents** – Use your "Recents" list to speed dial known locations

Get the most from your investment with VisionsConnected professional services. VisionsConnected experts support deployment of complex video infrastructures, installation, configuration and usage & adoption. Visit [www.visionsconnected.com](http://www.visionsconnected.com) for more information.
